

Optional Images to Print Out for Julie Liger-Belair's Online Class

Dream Bubbles & Scrappy Blablahs!

Hi everyone!

Julie uses a lot of royalty-free images in her collage work and she has created some pages for you to print out and use in her class if you like!

Julie writes:

I print all my material with a colour laser printer as the coating on the prints prevents the colours from bleeding when combining paper with paint. If you have an inkjet printer I suggest you either spray your prints with a waterproof fixative before using in our projects or get everything printed at a copy shop as they usually use laser printers too.

During the first week of class you will be working with glue stick and paper, so inkjets should work fine there.

Have fun gathering your materials and we'll see you in class soon!

Carla
